

The Future We Will Create Inside The World of **TED**

Art Not Final

The world's leading thinkers and doers gather to find inspiration at TED

Granted: an all-access pass to the "hottest gathering around," (*WIRED Magazine*) the TED (Technology Entertainment Design) Conference. **THE FUTURE WE WILL CREATE** is an exhilarating behind-the-scenes tour of this annual paradigm-shifting meeting of the minds—a veritable cirque du soleil of the psyche where theoretical physicists, 11-year-old violin prodigies, and venture capitalists share bold new ideas that could change life as we know it. Directed and narrated by actress Daphne Zuniga, this intellectually-charged film captures the best of TED 2006, including mind-blowing appearances by former Vice President Al Gore, comedian Julia Sweeney, the founders of Google, and many more inspired and inspiring TEDsters.

Entertaining and thought-provoking, **THE FUTURE WE WILL CREATE** will revolutionize the way viewers look at the world.
